

Background

In recognition of the legacy of healthcare workers during the COVID-19 pandemic, CIBC is investing \$500,000 over two years in the education of tomorrow's healthcare professionals. The CIBC Future Heroes Bursary Program will inspire and support the next generation in their ambition of having a career in healthcare.

Value and Duration of Bursaries

For the 2020/2021 academic year, entrance bursaries will be available to students entering into their first year of a first degree, be it a bachelor or diploma, at eligible Canadian universities and colleges.

Please see the list of eligible programs and institutions below.

Each scholarship will be valued at \$2,500 CAD for a one-year award.

Eligibility

Eligible applicants must:

- Be accepted into full-time studies in a first degree, be it a bachelor degree or diploma, in the 2020/2021 academic year;
- Be attending an eligible institution, as identified in the list below;
- Be enrolled in an eligible program, as identified in the list below;
- Be a Canadian citizen or permanent resident;
- Have a minimum cumulative average of 70% (or equivalent) over the last 3 terms of available marks*.
Non-academic courses such as career or personal development related courses will not be considered.

*Universities Canada's policy on calculation of average has been developed in consultation with university and college admissions and financial aid officers from across the country. There is enormous diversity amongst the applicants for this scholarship program. The applicants come from different geographical regions and have reached various levels of studies. Furthermore, and of great significance, is the fact that the grading systems differ among educational institutions. It is Universities Canada's policy to calculate the academic average of applicants so that it reflects an academically well-rounded individual, while recognizing the differences in the programs of studies. For this purpose, the most recent, followed by the highest available grades of four courses will be considered. In the case of high school transcripts, the following categories will be considered: Language, Social Sciences, Mathematics and Sciences. Six courses are chosen for each applicant, with no more than two in each category. If there are not enough available courses, the calculation of academic average may be based on four or five courses.
